CHASED BY HIS CREDITORS

Attachments Issued Against the Mt. Vernon Drug Store.

The Attorney for Dr. Coburn Confesses Judgment for \$4,200. Other Claimants.

The Mount Vernon drug store, at the corner of Ninth street and New York avenue, was closed today by reason of three attachments on the place by creditors, and a suit of the United States for the amount of the alleged shortage of Dr. F. S. Coburn.

The stock was in charge of a constable, and the removal of the goods is in progress this afternoon. The story of Dr. Coburn was told in The Times this morning.

The creditors principally are Mr. Henry Evans, another druggist, and also a grocer, in addition to the Government's claim.

The young clerk at the drug store, who is still very loyal to his old employer, defends him in every way.

He said that the debt of the store was small and insignificant compared with its value, and he seemed very sorry that the creditors had seen fit to take the step of closing it up.

The positive inspectors are only hopeful of catching Coburn, but as yet have very little ground for the belief. They are looking for Dr. Coburn in New York, Philadelphia, Boston and two other cities.

The examination of Dr. Coburn's accounts as postmaster at subsection No. 21, where the alleged defalcations occurred, is not yet complete.

The shortage so far is \$4,200; for which the United States entered suit against Dr. Coburn.

Last afternoon Mr. Thomas Taylor, attorney for Dr. Coburn, confessed judgment for that amount.

It is stated that the stock is worth about \$5,000.

INDUSTRIAL HOME SCHOOL

A Successful Year Under Government Management.

Testimonials as to the Training of

Immigrants From Families and

Firms—Needs of the Home.

J. Omond Wilson, president of the District of Columbia Industrial Home School, today handed to the Commissioners the annual report for the fiscal year just past, the first in which the home has existed as a public institution. Organized in 1895 it had previously been supported by private sources, but by act of Congress and action of the previous directors it was placed under control of the District government.

The report of the board of trustees sets forth that during the fiscal year ending June 30, 1897, there have been admitted to the home thirty boys and eight girls, while the number dismissed was, boys twenty-nine, and girls, sixteen. At the close of the year there were seventy-four boys and twenty-five girls; total, ninety-nine, inmates of the institutions.

Included in the report are a number of letters from firms and families with whom discharged inmates have been placed, attesting to the excellence of the training of the home, as shown in the character and capabilities of the boys and girls.

The report concludes with the following general remarks:

"This institution has existed for twenty-nine years as a private and one year as a public institution, during which time it has cared for nearly 1,500 destitute and neglected children. It has demonstrated the need of such a home in this city, to be supported by the public, and its transfer last year, under the authority of Congress, from private management to public control was in the line of the philanthropic sentiment of the age."

"It will be the aim of the trustees to gather from the experience of like institutions elsewhere, with the view to make this model of its kind and a credit to the National Capital."

"The school has already outgrown the tract of land between Fifth and Eighth streets, which it now occupies, and it will not be practicable to increase it by purchase."
